PROJECTS

Marketing Attribution Dashboard May 2026

GA4 · Multi-Touch Attribution · UTM Tracking · Data Visualisation

- Consolidated \$1.2M+ in ad spend across 5 channels (Google Ads, Meta, SEO, Email, Referral) into a unified attribution model — identified SEO as highest-ROAS channel at 6.1x
- Uncovered \$1,240 in wasted Meta spend and modelled a +\$2,700 net reallocation opportunity through channel-level performance analysis
- Standardised UTM tracking across 50+ campaigns and automated PDF reporting, cutting manual reporting time from 8 hours to 5 minutes
- Surfaced true channel value via first-click, last-click, and linear attribution models to support data-driven budget decisions

CRO Landing Page with GTM & GA4 Integration Apr 2026

Google Tag Manager · GA4 · Lighthouse · Core Web Vitals

- Built a mobile-first D2C-style landing page with conversion-focused UX — persuasive copy, streamlined checkout-style form flow, and trust-signal elements — targeting measurable lead capture
- Achieved 100% campaign-to-lead attribution via GTM event tracking and automated UTM capture; optimised page load speed by 40% and reduced LCP by ~1.6s, meeting Core Web Vitals thresholds

- Validated technical SEO and performance benchmarks using Lighthouse, ensuring search discoverability and smooth cross-device experience

AI Content Efficiency Tool

May 2026

LLM API · Marketing Automation · Token Optimisation

Live: claude-token-optimization.vercel.app

- Deployed a web app that converts raw marketing files into LLM-optimised format, reducing AI content production costs for marketing teams
- Enables marketers to preview token usage before API submission — directly lowering per-campaign AI spend
